1.2 **Relative identified uses of the substance or mixture and uses advised against**

| Relevant uses: Miscellaneous. For professional user /industrial user only. |
| Uses advised against: All uses not specified in this section or in section 7.3 |

1.3 **Details of the supplier of the safety data sheet**

| NHR Organic Oils, 24 Chatham Place, Brighton, BN1 3TN, UK. Email – info@nhrorganicoils.com |

1.4 **Emergency Tel. No.**

| + 44 (0) 1572 820267 |

2. **HAZARDS IDENTIFICATION**

2.1 **Classification of the substance or mixture**

The full text for all hazard statements is displayed in Section 16.

**Classification (EC 1272/2008)**

| Physical and Chemical Hazards: This substance does not present a physical hazard. Refer to the commendations regarding the other products present on the site. |
| Human health: |
| Aspiration hazard, Category 1 (Asp. Tox. 1, H304). May be fatal if swallowed and enters airways. |
| Acute oral toxicity, Category 4 (Acute Tox. 4, H302). Harmful if swallowed. |
| Skin corrosion, Category 1B (Skin Corr. 1B, H314). Causes severe skin burns and eye damage. |
| Skin sensitisation, Category Skin Sens. 1B: H317 - May cause an allergic skin reaction. |
| Environment: |
| Aquatic Chronic 2: H411 - Toxic to aquatic life with long lasting effects. |

2.2 **Label Elements**

Label in accordance with (EC) No 1272/2008

### Signal Word
Danger.

### Contains
- EC 209-235-5 4-TERPINENOL
- 601-029-00-7 (R)-P-MENTHA-1,8-DIENE
- 604-032-00-1 THYMOL
- EC 207-889-6 CARVACROL

### Hazard Statements
- H302 Harmful if swallowed.
- H304 May be fatal if swallowed and enters airways.
- H314 Causes severe skin burns and eye damage.
- H317 May cause an allergic skin reaction.
- H411 Toxic to aquatic life with long lasting effects.

### Precautionary Statements
- P273 Avoid release to the environment.
- P280 Wear protective gloves/protective clothing/eye protection/face protection.
- P301 + P330 + P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
- P302 + P352 IF ON SKIN: Wash with plenty of soap and water.
- P304 + P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
- P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P391 Collect spillage.

### Supplementary Precautionary Statements
None.

### 2.3 Other Hazards

#### PBT or vPvB according to Annex XIII
The substance does not satisfy the PBT or vPvP criteria in accordance with annex XIII of the REACH regulations EC 1907/2006.

#### Adverse physio-chemical properties
Not additional data available.

#### Adverse effects on human health
Not additional data available.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.2 Mixtures

Material Safety Data Sheet: Marjoram Oil Sweet Organic

Aquatic Chronic 2, H411

| Aquatic Chronic 2, H411 |

1.0% Carvacrol

CAS-No: 49975-2

EC No: 207-889-6

Classification (EC 1272/2008) GHS07, GHS05, Dgr, Acute Tox. 4, H302, Eye Dam. 1, H318

4. FIRST AID MEASURES

4.1 Description of first aid measures

- **Inhalation**: Move the exposed person to fresh air. Seek medical attention if any discomfort continues.

- **Ingestion**: Do not give the patient anything orally. In the event of swallowing, if the quantity is small (no more than one mouthful), rinse the mouth with water, administer activated medical charcoal and consult a doctor. Seek medical attention immediately, showing the label. If swallowed accidentally, call a doctor to ascertain whether observation and hospital care will be necessary. Show the label. If swallowed accidentally, do not allow to drink, do not induce vomiting and transfer to hospital immediately by ambulance. Show the label to the doctor.

- **Skin Contact**: Remove contaminated clothing and wash the skin thoroughly with soap and water or a recognised cleaner. Remove any soiled or splashed clothing immediately. Watch out for any remaining product between skin and clothing, watches, shoes, etc. In the event of an allergic reaction, seek medical attention. If the contaminated area is widespread and/or there is damage to the skin, a doctor must be consulted or the patient transferred to hospital.

- **Eye Contact**: Wash thoroughly with soft, clean water for 15 minutes holding the eyelids open. Regardless of the initial state, refer the patient to an ophthalmologist and show him the label.

4.2 Most important symptoms and effects, both acute and delayed

No additional data available.

4.3 Indication of any immediate medical attention and special treatment needed

No additional data available.

5. FIRE-FIGHTING MEASURES

5.1 Extinguishing Media

Non flammable.

5.2 Special hazards arising from the product

A fire will often produce a thick black smoke. Exposure to decomposition products may be hazardous to health. Do not breathe in smoke. In the event of a fire, the following may be formed: carbon monoxide (CO), carbon dioxide (CO₂)

5.3 Advice for firefighters

No additional data available.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Consult the safety measures listed under headings 7 and 8.

For non first aid worker
Avoid any contact with the skin and eyes.

For first aid worker
First aid workers will be equipped with suitable personal protective equipment (See section 8).

6.2 Environmental Precautions

Contain and control the leaks or spills with non-combustible absorbent materials such as sand, earth,
vermiculite, diatomaceous earth in drums for waste disposal. Prevent any material from entering drains or waterways.

### 6.3 Methods and material for containment and cleaning up.

Cover with an inert, inorganic, non-combustible absorbent material (e.g. dry-lime, sand, soda ash. Ventilate area and wash spill site after material pickup is complete. Clean preferably with a detergent, do not use solvents. Dispose of in accordance with current laws and regulations.

### 6.4 Reference to other sections

See sections 7, 8, 13.

### 7. HANDLING AND STORAGE

#### 7.1 Precautions for safe handling

Requirements relating to storage premises apply to all facilities where the substance is handled. Individuals with a history of skin sensitisation should not, under any circumstance, handle this substance. Always wash hands after handling. Remove and wash contaminated clothing before re-using. Provide emergency showers and eye wash stations will be required in facilities where the substance is handled constantly.

Fire prevention: Never inhale this substance. Prevent access by unauthorised personnel.

Recommended equipment and procedures:

For personal protection, see section 8. Observe precautions stated on label and also industrial safety regulations.

No smoking, eating or drinking in areas where the substance is used.

#### 7.2 Conditions for safe storage, including any incompatibilities

Storage Keep away from food and drink, including those for animals.

Packaging Always keep in packaging made of an identical material to the original.

#### 7.3 Specific end use(s)

No additional data available.

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1 Control parameters

No additional data available.

#### 8.2 Exposure controls

**Protective Equipment**

- Use personal protective equipment that is clean and has been properly maintained. Store personal protective equipment in a clean place, away from the work area. Never eat, drink or smoke during use. Remove and wash contaminated clothing before re-using. Ensure that there is adequate ventilation.

**Engineering Measures**

- Provide adequate ventilation. Use engineering controls to reduce air contamination.

**Respiratory Equipment**

- Provide adequate ventilation.

**Hand Protection**

- Use suitable protective gloves that are resistant to chemical agents in accordance with standard EN374. Gloves must be selected according to the application and duration of use at the workstation. Protective gloves need to be selected according to their suitability for the workstation in question: other chemical products that may be handled, necessary physical protections (cutting, pricking, heat protection), level of
dexterity required.

**Recommended properties:**
- Impervious gloves in accordance with standard EN374

**Eye Protection**
Avoid contact with eyes. Use eye protectors designed to protect against liquid splashes. Before handling, wear safety goggles with protective sides accordance with standard EN166. In the event of high danger, protect the face with a face shield. Prescription glasses are not considered as protection. Individuals wearing contact lenses should wear prescription glasses during work where they may be exposed to irritant vapours. Provide eyewash stations in facilities where the product is handled constantly.

**Other Protection**
No additional data available.

**Hygiene Measures**
Good personal hygiene practices are always advisable, especially when working with chemicals / oils.

**Personal Protection**
Avoid inhalation and contact with skin and eyes. Do not eat or drink whilst in the work area.

**Skin Protection**
Avoid skin contact. Wear suitable protective clothing.
Suitable type of protective clothing: In the event of substantial spatter, wear liquid-tight protective clothing against chemical risks (type 3) in accordance with EN14605 to prevent skin contact. In the event of a risk of splashing, wear protective clothing against chemical risks (type 6) in accordance with EN13034 to prevent skin contact. Wear suitable protective clothing and, in particular, an apron and boots. These items of clothing shall be maintained in good condition and cleaned after use. Work clothing worn by personnel shall be laundered regularly. After contact with the product, all parts of the body that have been soiled must be washed.

**Environmental Exposure Controls**
Do not allow to enter waterways.

---

### 10. STABILITY AND REACTIVITY

#### 10.1 Reactivity
This substance is stable under the recommended handling and storage conditions in section 7.

#### 10.2 Chemical stability
This substance is stable under the recommended handling and storage conditions in section 7.

#### 10.3 Possible hazardous reactions
10.4 Conditions to Avoid

No additional data available.

10.5 Incompatible materials

No additional data available.

10.6 Hazardous Decomposition Products

The thermal decomposition may release/form: carbon monoxide (CO), carbon dioxide (CO$_2$).

11. TOXOLOGICAL INFORMATION

11.1 Information on toxicological effects

| Acute Toxicity | Carvacrol CAS 499-75-2  
Oral route (Rat)  
LD$_{50}$ = 810mg/kg |
|---------------|------------------------|
| Skin corrosion / irritation | Harmful if swallowed.  
Corrosive reactions are typified by ulcers, bleeding, bloody scabs, and, by the end of observation at 14 days, by discolouration due to blanching of the skin, complete areas of alopecia, and scars.  
May cause an allergic reaction by skin contact. |
| Serious eye damage / irritation | No additional data available. |
| Respiratory or skin sensitisation | May cause irreversible damage to the skin; namely, visible necrosis through the epidermis and into the dermis, following exposure between three minutes and one hour. |
| Germ Cell Mutagenicity | No additional data available. |
| Carcinogenicity | Monograph(s) from the IARC (International Agency for Research on Cancer): CAS 5989-27-5 : IARC Group 3 : The agent is not classifiable as to its carcinogenicity to humans. |
| Reproductive toxicity | No additional data available. |
| STOT-single exposure | No additional data available. |
| STOT-repeated exposure | No additional data available. |
| Aspiration hazard | Aspiration toxicity includes severe acute effects such as chemical pneumonia, varying degrees of pulmonary injury or death following aspiration. May be fatal if swallowed and enters airways. Aspiration toxicity includes severe acute effects such as chemical pneumonia, varying degrees of pulmonary injury or death following aspiration. |
| Photo-toxicity | No additional data available. |
| Other Information | No additional data available. |

12. ECOLOGICAL INFORMATION

12.1 Toxicity

Toxic to aquatic life with long lasting effects.  
The product must not be allowed to run into drains or waterways.

12.2 Persistence & degradability

No additional data available.

12.3 Bioaccumulation Potential

No additional data available.

12.4 Mobility in soil

No additional data available.

12.5 Results of PBT and vPvB Assessment

No additional data available.
12.6 Other adverse effects

Do not allow product to enter streams, sewers or other waterways.

13. DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Proper waste management of the substance and/or its container must be determined in accordance with Directive 2008/98/EC. Do not pour into drains or waterways.

Waste:
Waste management is carried out without endangering human health, without harming the environment and, in particular without risk to water, air, soil, plants or animals. Recycle or dispose of waste in compliance with current legislation, preferably via a certified collector or company. Do not contaminate the ground or water with waste, do not dispose of waste into the environment.

Soiled packaging:
Empty container completely. Keep label(s) on container. Give to a certified disposal contractor.
