## *Safety Data Sheet*

# **Organic Siberian Pine Nut Oil**

*(Pinus sibirica)*

### **1. PRODUCT AND COMPANY NAME**

**Product Name:** **Siberian Pine nut oil**  
*Cold pressed, organic*

**Company Name:**  
NHR Organic Oils Ltd.  
24 Chatham Place Brighton  
BN1 3TN UK  
Phone: +44 01273 746505  
Mail: [info@nhrorganicoils.com](mailto:info@nhrorganicoils.com)

### **2. COMPOSITION AND INFORMATION ON INGREDIENTS**

Component: edible, vegetable oil

### **3. HAZARDS IDENTIFICATION**

It's edible quality. When properly used, there is no reason for a hazard.

### **4. FIRST AID MEASURES**

|              |                                                                                |
|--------------|--------------------------------------------------------------------------------|
| Inhalation   | Protection is not necessary.                                                   |
| Skin contact | The product is not skin irritating.                                            |
| Eyes contact | Rinse immediately with plenty of water. Obtain medical attention if necessary. |
| Ingestion    | Protection is not necessary (edible).                                          |

### **5. FIRE-FIGHTING MEASURES**

|                                  |                                                                                                                                                      |
|----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Recommended Extinguishing Media: | Use CO <sup>2</sup> , dry powder or foam extinguishers, spraying extinguishing media to base flames. Do not use direct water je on burning material. |
|----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|

|                   |                                                                                       |
|-------------------|---------------------------------------------------------------------------------------|
| Special measures: | Keep away from sources of ignition. Wear breathing apparatus and protective clothing. |
|-------------------|---------------------------------------------------------------------------------------|

|                                  |                                        |
|----------------------------------|----------------------------------------|
| Hazardous product of combustion: | smoke, carbon monoxide, carbon dioxide |
|----------------------------------|----------------------------------------|

## 6. ACCIDENTAL RELEASE MEASURES

Environmental protection measures:

On Land: Close leak. Do not discharge into drains, watercourses or low lying areas. Advise the relevant authorities if the product in water or sewer system has reached, or has contaminated soil and plants. Take measures to reduce or avoid impacts on groundwater. Contain the spill immediately with appropriate measures

On water: Dam the product immediately with appropriate measures. Warn other ships if necessary. Inform Port Police and other competent authorities.

Cleaning up methods for spillages:

On land:

The product, as far as possible, collect mechanically. Bind rest of product with sand or other adapted adsorption agent and collect it.

On water:

Remove the product with a skimmer or with adapted adsorption agent from water surface. In flowing waters confer with agency.

## 7. HANDLING AND STORAGE

|           |                                |
|-----------|--------------------------------|
| Handling: | Observe good personal hygiene. |
|-----------|--------------------------------|

|          |                                                                  |
|----------|------------------------------------------------------------------|
| Storage: | Store in closed original container in a cool, dark and dry area. |
|----------|------------------------------------------------------------------|

|                  |                                                    |
|------------------|----------------------------------------------------|
| Fire protection: | Keep away from source of ignition and naked flame. |
|------------------|----------------------------------------------------|

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

inhalation protection: not necessary

eye protection: wear safety glass if there is a risk of splash

## 9. PHYSICAL AND CHEMICAL PROPERTIES

|                  |                                |
|------------------|--------------------------------|
| Physical state   | liquid                         |
| Odour            | characteristic                 |
| density at 20 °C | approx. 0,92 g/cm <sup>3</sup> |

## 10. STABILITY AND REACTIVITY

|            |                                |
|------------|--------------------------------|
| Stability: | stable under normal conditions |
|------------|--------------------------------|

|                      |                                                      |
|----------------------|------------------------------------------------------|
| Conditions to avoid: | strong oxidants like chlorine or concentrated oxygen |
|----------------------|------------------------------------------------------|

## 11. TOXICOLOGICAL INFORMATION

When properly used, there is no reason for a hazard.

## 12. ECOLOGICAL INFORMATION

Readily biodegradable

## 13. DISPOSAL CONSIDERATIONS

Dispose of according to local regulations

## 14. TRANSPORT INFORMATION

|                               |                                                           |
|-------------------------------|-----------------------------------------------------------|
| <b>Ground transport</b>       | ADR/RID and GGVSEB<br>not classified as “dangerous goods” |
| <b>Inland water transport</b> | ADNR /GGVSEB<br>not classified as “dangerous goods”       |
| <b>Ocean shipping</b>         | IMDG/GGVSee<br>not classified as “dangerous goods”        |
| <b>Carriage by air</b>        | ICAO/IATA<br>not classified as “dangerous goods”          |

## 15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture:

### **EU regulatory information**

|                                              |                                        |
|----------------------------------------------|----------------------------------------|
| 2004/42/EC (VOC):                            | 100 % (920 g/l)                        |
| Information acc. to 2012/18/EU (SEVESO III): | not subject to 2012/18/EU (SEVESO III) |

### **National regulatory information**

|                                |                               |
|--------------------------------|-------------------------------|
| Water contaminating class (D): | generally water contaminating |
|--------------------------------|-------------------------------|

|                             |                                             |
|-----------------------------|---------------------------------------------|
| Chemical safety assessment: | has not been carried out for this substance |
|-----------------------------|---------------------------------------------|

## 16. OTHER INFORMATION

All information contained in this Material Safety Data Sheet and, in particular, the health and safety and environmental information is accurate to the best of our knowledge and belief as at the date of issue specified. However, the Company makes no warranty or representation, express or implied, as to the accuracy or completeness of such information. The provision of this Material Safety Data Sheet is not intended, of itself, to obviate the need for all users to satisfy themselves that the Product described is suitable for their individual purposes and that the safety precautions and environmental advice are adequate for their individual purposes and situation. Further, it is the user's obligation to use this Product safely and to comply with all applicable laws and regulations concerning the use of the Product. The Company accepts no responsibility for any injury, loss or damage, consequent upon any failure to follow the safety and other recommendations contained in this Material Safety Data Sheet, nor from any hazards inherent in the nature of the Product, nor from any abnormal use of the Product.
